

## Ile-a-Vache Fish Pond:

1. New pond site
2. The Project Drawing
3. Existing Pond
4. Gas & Pump repair invoice
5. Water is being pumped from the pond to be dug to the pond that already has fish in it so that they can put the water to good use in the dry season. Men will then start working at the digging.
6. New tools
7. Work has started. Workers rotate as they want to give everyone a chance to make some wages.
8. Passing the Bucket
9. All by hand - hot & messy work for sure!

Great to see this project well under way, and so well organized, fairly giving everyone the chance for some wages as they work to increase the protein supply for their food!

We will print more photos as the work proceeds through the Summer!

And we await hearing if our District Grant application for the Chicken Coop, is approved late Summer.
