More Progress in Haiti: Week 4

"Another week of playing in the mud. Wagner says it is 2 1/2 ft deep. Bruce told him to pump the water out again and the digging should go faster. We need min. of 4 ft. Hard slugging. But all are so happy to have the work and know what this will bring to the community so it has caused a lot of excitement for everyone. Wagner says everyone happy.

As you can see they are working at joining the two ponds together, It full of roots and stumps, not fun."

Our contact , Bonnie, will be away for a couple of weeks but we will continue to get photos as the work proceeds.

A most exciting project. Bonnie notes that "it is graduation time there and an exciting time for the kids and parents."

The Pavilion: A meaningful community project initiated by the Rotary Club of Orangeville and built by two Rotary Corporate members, Devonleigh Homes and Whispering Pines Landscaping.

Follow Your Dreams: Gift by Home Hardware Orangeville owners, Melody Crowe and Buddy Pitt. A pollinator parkette has been created for people to sit, relax and enjoy.

Drystone Wall/Gateway: This is a hand created work of art by Eric Landman and his associate, John Bland. One half is dedicated to Ann Davidson, by her sister and the other half and a wheelchair accessible walkway by a wonderful supporter of Friendship Gardens.

The Healing Wheel renovation/pollinator garden: University of Guelph landscape/architecture students and their professor did projects on how to convert this area to a more user and environmentally friendly area. One of the results is this lovely pollinator garden planted inside The Healing Wheel, by Shelburne high school students.

Invitation:

PHF Lynn sent us this invitation and has also extended it to Corporate Members, Devonleigh Homes and Whispering Pines.

Lynn has asked that those who plan to attend, advise her in advance to arrange for catering (nibbles & beverages), as well as so Name Badges can be prepared.

Please coordinate this by advising Don by email, then Don will forward one list to Lynn.

It will be good to see our efforts come to fruition and to meet other likeminded folks who have made the other Friendship Gardens elements happen.
