

Mayor Sandy Brown

Well-prepared and well-delivered, lots of interesting things happening in and around Orangeville, including:

- **Policing:** the OPP now have a new Street Crime Unit that facilitates communications with other Communities. A Traffic Calming Study is underway and soon a series of "Black Cats" will be installed to record traffic flow, speed and data to plan for policing. A Bicycle Unit will appear next Summer.

- **Long Term Care:** Primacare will be providing 192 units on some 10 acres of the Humber Lands in the near future.
- **Mens Shelter:** lots of things in motion here with the Ad Hoc Committee formed and studies to find an agency to run it, and various locations under consideration.
- **The Railway:** The line will be sold and should go a long way to recouping the lost \$10 million since the Town purchased the line in 2000. Plans are that it will likely be turned into a Recreational Trail - watch for announcements in the Spring.
- **Council:** Is working together really well this term and lots is being accomplished - good to hear.
- **Hansen Bridge:** The plan is that this will be built by the Town in 2022 with the road being built by the Developer

Thanks Sandy, great presentation, good to hear lots of positive news!

As the Ceremony was not open to the Public, this photo of President Taunya was taken later in the day.
