"Dictionaries - Label & Sort Day"

Tuesday, February 22nd

Thank you Amy for the great job organizing our Dictionary Project this year!

Well, for the first time I can remember, I got so wrapped up in what we were doing that I took no photos of work in progress.

So, all I can show is the finished product.....

Almost 1000 dictionaries were unboxed, labeled, re-boxed, and sorted by schools.

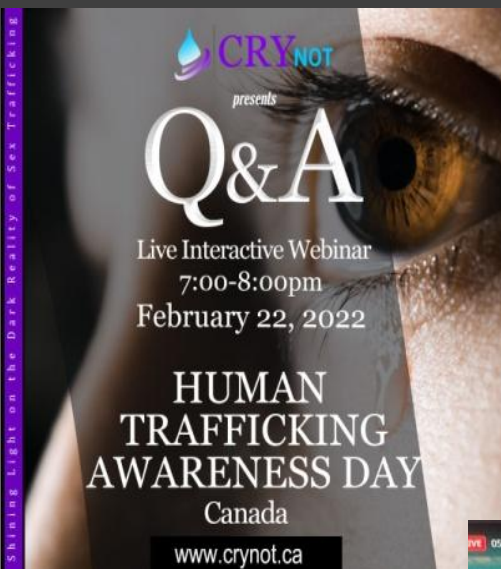

They are now all ready to be picked up at the Hall on March 8th and delivered to the schools, so please contact Amy and let her know which schools you would like to deliver to - first come, first served.

"Q&A - the Webinar"

Tuesday, February 22nd

I was certainly proud to be a member of RCO tonight as I sat through this excellent, professional, well-produced and riveting production!

Congratulations, particularly to Mike for all the technical expertise in setting this up and guiding it through the process.

I will likely miss some names, sorry, but thanks to Sheri, working behind the scene, to Dave, leading the Special Events team, and to everyone else who worked so hard on it.

Well done!

Thanks too to the excellent panel - great choices - well presented.

And thanks to Bernadette for a great job hosting the webinar, keeping everyone on track, involved and telling the stories in logical order.
